

Wasp Trap

Instructions:

1. Twist off top of wasp trap.
2. Pour one cup of sugared water or sweet juice into wasp trap, making sure no spillage occurs.
3. Hang trap or set on flat surface. For best results, set trap away from gathering area.

For best results always maintain a minimum of one cup sweet liquid, as liquid may evaporate.

When emptying the wasp trap, ensure all insects trapped inside are dead prior to opening. If you are uncertain, simply submerge wasp trap into HOT water.

WARNING: Keep out of reach of children and pets, insects may sting.
